

The *new* Allscripts represents the merger of Misys Healthcare and Allscripts into a single new company with a single identity. The *new* Allscripts enables our customers and patients to “Connect to Health” summarized in the following video: www.allscripts.com/one .

AllscriptsMisys (NASDAQ: MDRX) uses innovative technology to bring health to healthcare. More than 150,000 physicians, 700 hospitals and nearly 7,000 post-acute and homecare organizations utilize AllscriptsMisys to improve the health of their patients and their bottom line. Allscripts is the brand name of AllscriptsMisys Healthcare Solutions, Inc.

The company's award-winning solutions include electronic health record, electronic prescribing, revenue cycle management, practice management, document management, medication services, hospital care management, emergency department information systems and homecare automation.

At mPacts, we help practices gain clinical and business efficiencies through the considered and appropriate implementation of Healthcare and business Information Technologies. We perform all of the same services and functions that a full time IT Department can, for about half the traditional cost. We work hand in hand with your current IT Staff to enhance existing services, or we can completely staff your network with members of the mPacts team. Recruiting and retaining the highly trained professionals required to manage a practice's Healthcare IT infrastructure has evolved beyond the practical resources of most Physicians or Physician's Groups. mPacts' team management approach directly addresses this by providing experienced, degreed or certified staff with a comprehensive variety of expertise in all of the areas and disciplines required to manage and maintain a modern Healthcare IT Enterprise. From Tier One Helpdesk Support, to Upper Tier Enterprise Engineering, to EMR/EHR Project Management and Implementation, mPacts has the staff, expertise and expertise to ensure your Healthcare IT systems are efficient, productive, reliable and secure.
